

**BHASKARACHARYA NATIONAL INSTITUTE FOR SPACE
APPLICATIONS AND GEO-INFORMATICS**

WEEKLY PROGRESS REPORT (09/03/2026 – 15/03/2026)

WEEK 14

PROJECT NAME

DIGITAL TOWN PLATFORM

PROJECT DESCRIPTION :

**DESIGN TO PROVIDE TOWN-LEVEL
INFORMATION, SERVICES, THROUGH A SINGLE
SYSTEM**

GROUP MEMBER :

Vandit Muniya, Mitanshu Parmar

GROUP ID :

2025G152

GROUP GUIDE :

Dr. MANOJ PANDYA

GROUP COORDINATOR :

SIDHDHARTH PATEL

COLLEGE GUIDE NAME :

NEHA FOTEDAR

COLLEGE GUIDE No. :

NOT ASSIGNED

COLLEGE GUIDE EMAIL. :

Nehafotedar.ce@ddu.ac.in

COLLEGE NAME :

DHARMSINH DESAI UNIVERSITY, NADIAD

09/03/2026	• Vandit Muniya: Developed the Grievance submission interface in React, implemented form handling for complaint details and evidence image upload, integrated Axios API calls with backend grievance APIs, and designed the UI using Tailwind CSS. • Mitanshu Parmar: Designed the Grievance module backend architecture, created the MongoDB schema for grievance records, implemented CRUD REST APIs, and integrated authentication middleware for secure API access.
10/03/2026	• Vandit Muniya: Developed the Admin Grievance Management dashboard, implemented grievance status update functionality, integrated role-based admin routes, and tested the grievance workflow with backend APIs. • Mitanshu Parmar: Integrated Cloudinary storage for grievance evidence images, implemented Multer middleware for file uploads with validation for image formats and size limits, and connected uploaded image URLs with grievance records in MongoDB.
11/03/2026	• Vandit Muniya: Reviewed and refactored the Marketplace module by disabling the previous e-commerce workflow including cart, orders, and seller dashboard components to prepare for the redesigned marketplace system. • Mitanshu Parmar: Tested and debugged grievance APIs, resolved issues related to file uploads and request validation, and verified correct storage of grievance details and Cloudinary image URLs in the database.
12/03/2026	• Vandit Muniya: Refactored the Services module for improved code reusability, implemented shared APIs for nearby place detection and reverse geocoding, and ensured synchronization between the map interface and service listings. • Mitanshu Parmar: Implemented user grievance tracking functionality including viewing submitted grievances, displaying status indicators, enabling grievance deletion by users, and ensuring responsive UI integration.

13/03/2026	• Vandit Muniya: absent • Mitanshu Parmar: Implemented the redesigned Marketplace page for location-based market discovery, enabling location detection, nearby market retrieval, and interactive map visualization using the existing places dataset.
14/03/2026	• Vandit Muniya: Explored integration of external basemaps in QGIS and investigated enabling Google Maps layers to visually verify and validate geospatial data extracted from OpenStreetMap datasets. • Mitanshu Parmar: absent
15/03/2026	Holiday (Sunday)

Next Week Plan	• Perform final testing, debugging, and system integration to ensure smooth interaction between Marketplace, Grievance, and other platform modules.
