

**BHASKARACHARYA NATIONAL INSTITUTE FOR SPACE
APPLICATIONS AND GEO-INFORMATICS**
WEEKLY PROGRESS REPORT (23/03/2026 – 29/03/2026)

WEEK 15

PROJECT NAME

DIGITAL TOWN PLATFORM

PROJECT DESCRIPTION :

**DESIGN TO PROVIDE TOWN-LEVEL
INFORMATION, SERVICES, THROUGH A SINGLE
SYSTEM**

GROUP MEMBER :

Vandit Muniya, Mitanshu Parmar

GROUP ID :

2025G152

GROUP GUIDE :

Dr. MANOJ PANDYA

GROUP COORDINATOR :

SIDHDHARTH PATEL

COLLEGE GUIDE NAME :

NEHA FOTEDAR

COLLEGE GUIDE No. :

NOT ASSIGNED

COLLEGE GUIDE EMAIL. :

Nehafotedar.ce@ddu.ac.in

COLLEGE NAME :

DHARMSINH DESAI UNIVERSITY, NADIAD

23/03/2026	• Vandit Muniya: Worked on refining the Services module UI, improving filtering and category mapping logic for better user navigation. Explored optimization techniques for handling large location datasets efficiently on the frontend. • Mitanshu Parmar: Focused on backend API stability, debugging issues in the News module unit tests, and ensured proper response handling. Investigated failure cases and improved error handling in controller logic.
24/03/2026	• Vandit Muniya: Enhanced map-based service discovery, integrating dynamic location fetching and improving marker rendering logic. Worked on aligning map interactions with user-selected filters. • Mitanshu Parmar: Implemented and tested search + filter APIs for services, ensuring efficient querying and accurate results. Continued Redis exploration for caching frequently accessed service data.
25/03/2026	• Vandit Muniya: Improved frontend usability features, including search responsiveness and UI consistency across modules. Refactored components to make the interface more modular and maintainable. • Mitanshu Parmar: Strengthened Redis caching implementation, tested key-value storage patterns, and analyzed cache hit/miss behavior. Debugged issues related to missing cache entries in the services module.
26/03/2026	• Holiday (Ram Navami)
27/03/2026	• Vandit Muniya: Worked on integration between frontend components and backend APIs, ensuring seamless data flow for services and grievance-related features. Verified UI behavior with real-time data updates. • Mitanshu Parmar: Conducted final debugging and optimization, ensuring stable API performance and consistent cache synchronization. Reviewed overall system flow and resolved remaining edge-case issues in data handling.

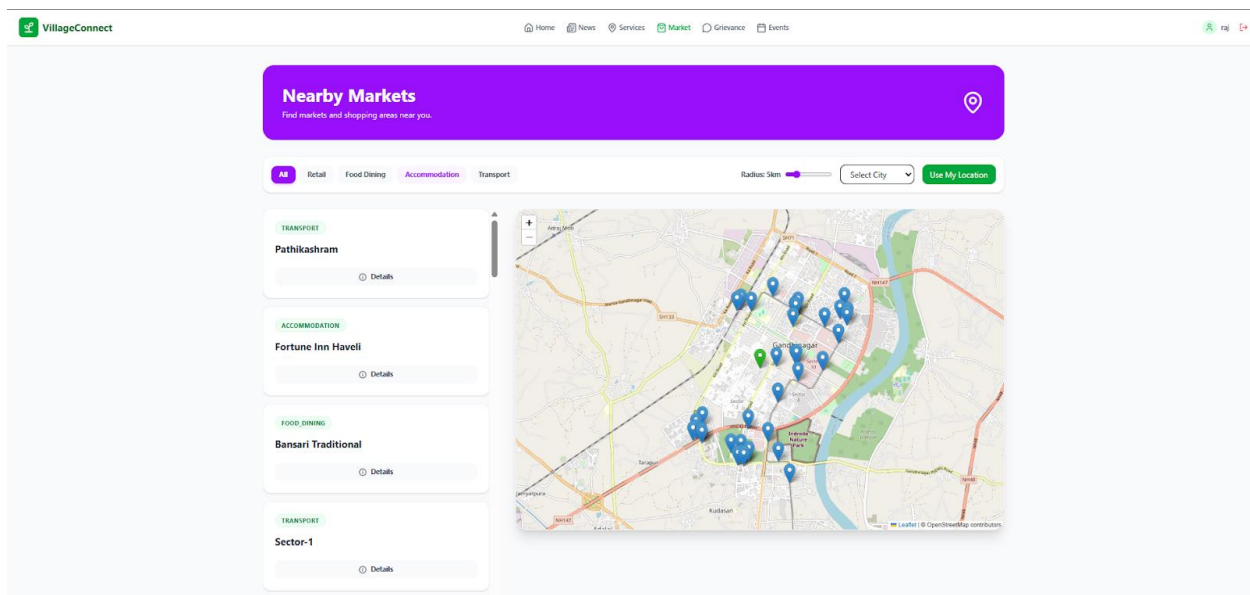

28/03/2026	• Holiday (saturday)
29/03/2026	Holiday (Sunday)

Next Week Plan	• Complete the remaining project documentation, including system design, diagrams, and final report compilation.
