

**BHASKARACHARYA NATIONAL INSTITUTE FOR SPACE
APPLICATIONS AND GEO-INFORMATICS**

WEEKLY PROGRESS REPORT (30/03/2026 – 03/03/2026)

WEEK 17

PROJECT NAME

DIGITAL TOWN PLATFORM

PROJECT DESCRIPTION :

**DESIGN TO PROVIDE TOWN-LEVEL
INFORMATION, SERVICES, THROUGH A SINGLE
SYSTEM**

GROUP MEMBER :

Vandit Muniya, Mitanshu Parmar

GROUP ID :

2025G152

GROUP GUIDE :

Dr. MANOJ PANDYA

GROUP COORDINATOR :

SIDHDHARTH PATEL

COLLEGE GUIDE NAME :

NEHA FOTEDAR

COLLEGE GUIDE No. :

NOT ASSIGNED

COLLEGE GUIDE EMAIL. :

Nehafotedar.ce@ddu.ac.in

COLLEGE NAME :

DHARMSINH DESAI UNIVERSITY, NADIAD

30/03/2026	• Vandit Muniya: Worked on documentation of the <i>Services and Marketplace modules</i>, including module descriptions, system features, and UI flow. Structured content for better clarity and user understanding, focusing on how citizens interact with service discovery and filtering. • Mitanshu Parmar: Prepared documentation for <i>backend architecture and API workflows</i>, including authentication, grievance handling, and data flow between modules. Defined clear explanations for API structure and system communication.
31/03/2026	• Vandit Muniya: Documented <i>geospatial features and map-based service discovery</i>, including location-based filtering and Leaflet integration. Added explanations for how users can find nearby services using map visualization. • Mitanshu Parmar: Worked on documenting <i>database design and schema structure</i>, including collections like Users, Services, Grievances, and Marketplace. Explained relationships, normalization approach, and data handling logic.
01/04/2026	• Vandit Muniya: Focused on <i>GUI design documentation</i>, including dashboard layout, navigation structure, and user interface strategy. Described responsiveness, card-based UI, and user interaction flow across modules. • Mitanshu Parmar: Documented <i>caching and performance optimization</i>, including Redis implementation, API efficiency, and system scalability. Also covered error handling and backend reliability aspects.
02/04/2026	• Vandit Muniya: Worked on <i>system features and advantages documentation</i>, highlighting usability, accessibility, and community interaction aspects of the platform. Refined explanations to make them more user-centric. • Mitanshu Parmar: Completed documentation for <i>testing, security, and deployment readiness</i>, including JWT authentication, role-based access control, and testing strategies like unit and integration testing.

03/04/2026	• Holiday(Good Friday)
